SUMMARY

Full Stack Web Developer with 2+ years of experience building responsive, AI-driven web applications using React and Next.js. Currently pursuing a BS in Computer Science, with a strong focus on leveraging analytics to enhance user experience and drive product impact. Seeking to contribute scalable, data-informed solutions to a forward-thinking tech company.

WORK EXPERIENCE

Full Stack Developer - Zetasoft Solutions

May 2024 – Present

- Developing scalable web applications using MERN stack, Next.js, TypeScript, and Prisma.
- Integrated PostgreSQL, MySQL, and MongoDB databases to support complex data-driven features.
- Contributed to AI-based video editing tools, improving processing speed and user engagement.
- Collaborated with cross-functional teams to deliver high-quality, maintainable code under tight deadlines.

Freelance Web Developer & Self-Led Projects

Jan 2023 – Apr 2024

- Built and deployed multiple full-stack applications including AI video editors, e-commerce platforms, and portfolio sites.
- Leveraged React, Next.js, and REST APIs to create responsive, high-performance user experiences.
- Gained hands-on experience in project architecture, database design, and cloud deployment.
- Maintained active GitHub contributions showcasing technical breadth and continuous learning.

Full Stack Developer Trainee – Mindsgigs, Pakistan

Oct 2022 – Mar 2023

- Completed intensive hands-on training in JavaScript, React, Node.js, and MongoDB.
- Built real-world projects under mentorship focusing on performance and best practices.

EDUCATION

Bachelor of Science in Computer Science

2023 – Present

Virtual University of Pakistan

- Coursework includes Data Structures, Web Development, Databases, Computer Architecture, and Artificial Intelligence.
- Actively applying academic knowledge in real-world software development projects and freelance work.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Shadcn UI, Redux, Zustand
- **Backend:** Node.js, Express.js, FastAPI (basic), C++, Python
- **Databases:** MongoDB, PostgreSQL, MySQL, Prisma
- **Tools & DevOps:** Git, GitHub, Vercel, Railway, AWS (basic), Postman, ImageKit, Resend
- **Others:** REST APIs, Responsive Design, CI/CD, Deployment

PROJECTS

AI Video Editor for [editur.ai](#) – Client Project at ZetaSoft (UAE)

Tech: Next.js, TypeScript, Tailwind CSS, Shadcn UI, Prisma, PostgreSQL, Stripe, FastAPI, Python, YOLO, OpenAPI, AWS S3, Railway

- Built a full-stack AI video editor platform with separate role-based dashboards for users and admins.
- Integrated ffmpeg.wasm and YOLO models via a FastAPI backend to handle editing tasks and visual analysis.
- Added subscription-based payment system using Stripe, with analytics and usage metrics.
- Deployed frontend on Railway, backend FastAPI on AWS EC2; used AWS S3 for secure video storage.

Training Management System (TMS) – for ECI (at ZetaSoft)

Tech: Node.js, Express.js, MySQL, Handlebars (HBS)

- Collaborated with senior developers to deliver a custom TMS platform for an education company.
- Developed server-side rendered interfaces and admin workflows for training sessions, reporting, and course management.
- Focused on secure data handling and backend performance optimization.

E-commerce Storefront

Tech: Next.js, TypeScript, Prisma, MongoDB, Stripe, Tailwind CSS, Shadcn UI

- Developed a modern e-commerce platform with dynamic product pages, checkout flow, and order tracking.
- Implemented Stripe for seamless payments and Prisma ORM for product and user data management.
- Backend built using Next.js API routes for scalable serverless functions.

Client Portfolio Website

Tech: Next.js, JavaScript

- Created a responsive personal portfolio website for a freelance client to showcase their design and branding services.
- Delivered with SEO optimization, animation, and mobile responsiveness.

T-shirt E-commerce Site ([andazenu.com](#))

Tech: Next.js, TypeScript, Tailwind CSS, Shadcn UI, Prisma, PostgreSQL, Zustand, ImageKit, Resend

- Designed and built a complete storefront for custom t-shirt sales with order tracking and image hosting.
- Used Zustand for state management, ImageKit for image CDN, and Resend for transactional emails.
- Backend implemented using Next.js API routes with PostgreSQL via Prisma.

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Urdu (Native), Pashto (Conversational)
- **Certification:** Full Stack Developer – Mindsgigs (Oct 2022 – Mar 2023)
- **Activities:** Participated in City University Skillathon, promoting coding among students
